# WE WILL BUILD INTERURBAN LINE, DECLARES CAPITALIST OF CHICAGO

"Our people will build the road."

George A. Yuille of Chicago, made the foregoing statement last night at the residence of P. S. Granger in this city following an inspection yesterday of the proposed route of the Fresno-Hanford interurban line. Mr. Yuille came to this city with Mr. Granger as the representative of the bonding company which has purchased the

Fresno-Hanford bonds and last night he declared that his company would build the road. Furthermore, he declared that the road would be started within a very short time.

"I went over the route today," he said, "in speaking of the proposition. 'The road will be built.'"

"Will your people build the road?" he was asked.

"Our people will build the road," was the immediate answer.

"I can say furthermore," he added, "that the Fresno-Hanford road will not be the only road which we will build in this valley. Before the construction work on this road is half finished we will have started another road to connect with this which will touch another part of the valley. We have come to Fresno to inaugurate a system of interurban railroads with Fresno as a center and the Fresno-Hanford line is only the opening wedge. Other roads will follow as quickly as possible."

"The reports made by Mr. Granger and Mr. Davis of the Cleveland Construction Company to us, greatly underestimated the value of this project, and now that I have been on the ground I can see it. This is a wonderful valley, and we are going to take advantage of Fresno's position in the valley."

As to the date for the opening of construction, Mr. Yuille was not at liberty to make a statement, declaring that if he did, and obstacles should arise which would make necessary a postponement, then the people would begin to have doubts as to his sincerity.

The name of the company which has purchased the bonds of the new road is withheld and will not be made public until the "opening" of the project and some of the other head officers of the company about the middle of next week. These people will leave Chicago tonight for Fresno. "I am going to superintend the work of construction," said Mr. Yuille last

night, "and will become a citizen of Fresno."

TO BUILD OFFICE.

Negotiations are at present under way between the Fresno-Hanford railway company and Louis Einstein for the purchase of two lots on the south side of I street, between Kern and

upon which a two-story office building will be constructed, according to statements made by Mr. Granger and Mr. Yuille last night. The purchase price of the lots will be in the neighborhood of \$2000.

The building to be erected here will be a two-story structure, 30x100 feet

An inspection will be made today of several sites for a car barn and shops and it will probably be a day or so before a site is definitely selected.

While Fresno will be the terminal point of the Fresno-Hanford line, and of other lines which are to follow, a handsome terminal will also be constructed at Hanford for the accommodation of the traffic at that end.

It was also stated last night that the equipment on the new road will be the best obtainable to accommodate the traffic. The baggage cars will be of the same equipment as the passenger coaches, only they will be less

In speaking of the proposition made by Granger, Mr. Yuille stated last night that prior to the appearance of Mr. Granger in Chicago, his company had turned down between 350 and 360 proposition schemes which had been presented.

"Many of the schemes were merely dreams which the promoters wished us to unravel, and in many instances we only glanced over the first page of the written proposition, when we threw it into the waste basket. In securing the right-of-way for the road and making everything ready for the show, Mr. Granger unraveled his dream and consequently we are going to work

DAVIS WANTED BONDS.

W. E. Davis, of the Cleveland Construction Company, was very loath to give up his report to Granger when the latter requested that he might present it to the Chicago bonding firm, stating at the time that he wished to build the road. Granger informed him, however, that he could not wait for

But for the fact that the Cleveland Construction Company was tied up with the defense of its system, insured by Tom Johnson, in Chicago, it is probable that the company would have built the road at the present time.

But for the fact that the Cleveland Construction Company was tied up with the defense of its system, insured by Tom Johnson, in Chicago, it is probable that the company would have built the road at the present time.

RIGHTS-OF-WAY SECURED.

With the exception of one or two pieces of right-of-way which will in all probability, be condemned, the rights-of-way for the Fresno-Hanford road have all been secured and the few remaining prospective owners will be no obstacle to the work of the starting of construction.

GRANGER LABORS LONG.

P. S. Granger came to Fresno in September, 1928, for the purpose of building an interurban line from Fresno to Hanford. He had previously attempted such a proposition the year before, but the coming of the financial panic caused him to cease operations. For over a year he has labored, meeting with all sorts of obstacles, until at last he has not only purchased the entire route for the proposed road, but has secured money with which it may be constructed and put into operation.

A number of capitalists have been approached and asked to provide funds for the building of the road, and all have failed to come through with the

## A Great Sale of Dresses Starts Today Splendid Values Up to \$27.50 for \$16.95

Nearly One Hundred This Season's  
Newest Dresses on Sale at an Enormous Saving, \$16.95---Alterations Extra.

Alterations extra at cost.

## The Wonder Cloak & Suit House.

necessary money, but Granger has been patiently at work and at last has landed a company which will not only finance the Fresno-Hanford road but will build other roads leading out of Fresno.

Although he has acted in the capacity of promoter, Mr. Granger firmly believes that he will not leave this city but will make it his permanent home. He will also act as vice-president of the new road. A. H. Clark is president of the Fresno-Hanford road.

A PLAGUE OF BABBOONS.

In many parts of Nigeria, and especially among the hill regions of the northern provinces, baboons are one of the greatest plagues to the farmer and a source of menace to property.

Although he has acted in the capacity of promoter, Mr. Granger firmly believes that he will not leave this city but will make it his permanent home. He will also act as vice-president of the new road. A. H. Clark is president of the Fresno-Hanford road.

They possess a regular system of defense, and always have signposts set to watch the approach of a possible enemy. The signposts are always the biggest, and they signal by jerking to their comrades when danger is approaching from the West.

### TO CONTINUE WORK

A meeting will be held in Oakland Monday of Progressive Republicans from all over California, under the auspices of the executive committee of the Lincoln-Roosevelt League, to take steps for the further organization of the work of Progressive Republicanism in California. Just what that meeting will do of course no one can predict, but we may be certain that the work will be inaugurated with renewed courage, and with wisdom gained of experience.

For forty years, right-minded men in California have been protesting and fighting against the domination of its government by a corrupt political machine, financed and organized always by the transcontinental railroads. On rare occasions, that fight was organized. Whenever it was organized, complete or partial victory was attained. Unorganized fight has been almost uniformly futile. Two years ago the Lincoln-Roosevelt League was organized. With imperfect equipment, no campaign fund (it never spent \$1000 all told) no men expert in the details of state politics, a primary law which literally stole nearly half the state, and with all the pioneer work to do, the Lincoln-Roosevelt League accomplished what, under all the conditions, were really astonishing results. It succeeded, directly or indirectly, in securing reform governments in nearly every city in California. The recent reaction that threw out some of these reform governments occurred during a lull in the activity of the League. It succeeded in electing the decenter legislature California has had in the memory of man. It was not decent enough, by any means, but between the actively decent men and the weak-kneed who were scared decent, it was possible in this legislature to force through considerable reform legislation, and to prevent much of the usual indecency. As much improvement of the next legislature over the last as that was an improvement over its immediate predecessors would bring us clear over the threshold of positive decency. And the League has succeeded in arousing and crystallizing sentiment, and in discovering and bringing together men in all parts of the state who have learned to trust each other and to work together.

Now, with this as a nucleus, the movement is to be put into form for the vital contest of next year. At the next election, a governor, a whole state ticket, and a legislature which will choose a United States Senator are to be elected. If these offices can be filled by men aggressively independent of the machine, chosen on that issue, and committed to a general program of needed reforms, that one election will set California permanently forward into a new class of free states.

### "BARBARISM"

Evidently Mexico acquiesces under the "Barbarous Mexico" articles. At any rate, we have received two Mexican papers, one in English and one in German, with articles on "Barbarous Mexico," referring to recent lynchings in Cairo. We have not seen the Spanish papers, but evidently these two papers printed in foreign languages, took their cues from the native press.

It is all very well to shout "you're another," but it is not to the point. Besides, the occasional lynchings and other barbarities in America are criminal uprisings against the law, while the peonage system of Mexico, on which the barbarism rests, is a part of the law. It is the law of Mexico that one man may own another man's labor, and compel him to deliver it. It is the law of human nature that where such power exists it will be abused. It is not safe to trust one man with irresponsible power over another man. There are men who would probably be better off in slavery than in freedom, but there are no men who are better off to be the masters of slaves. The demoralization of slavery is more certain on the master than on the slave.

So there is no "barbarism" anywhere that is comparable to the barbarism of slavery, and there can not even be retaliation against the charge of slavery by returning any counter-charge whatever. Our friend John Kenneth Turner may have seen Mexico through the spectacles of a vivifying imagination. But it is not doubted that he saw slavery there, and where slavery is, all the other things he reports are almost certain to exist.

### ALL "CONSERVING"

Secretary Ballinger is out in a statement vindicating himself from charges of collusion in graft, and placing himself in the front rank of conservationists.

May he succeed! The American people are not judicial. They are not going to weigh all the evidence for or against Ballinger, and convict or acquit him. They will in a general way jump at the two conclusions that so much would not have been charged against him unless something was wrong, and that he would not have been so well defended unless things were getting right. So the off-hand opinion will be that Ballinger was "off" on the conservation question, and has now got back, determined on out-conserving the conservators.

And that is the main thing. It is now demonstrated that for a public officer to be even suspected of being on the anti-conservation side is to raise a storm about him that there is no peace for him except in a really radical policy of conservation. Roosevelt and Pinchot have educated the people on this point. Among politicians, lawyers, and business exploiters there may be a difference of opinion. Among the people there is none.

### 'PUNISHMENT' PRICES

The moral of the attempt on the part of the Consolidated packers to break the market, by selling raisins at less than cost, is that the business end of the raisin business needs to be taken out of the hands of gamblers and put into the hands of business men. Buying and selling raisins is one thing. Manipulating the market for margins, or sacrificing part of one year's profit to clinch a monopoly for another year, are very different things. The growers had an experience with "punishment prices" one year, on their end of the business, and the resulting lack of confidence was the entering wedge that ultimately disrupted the raisin growers' association. Punishment prices on the packing end can have no other result.

Fortunately, there is no indication that this move has yet broken the Eastern market, and it is to be hoped it will not. Natural conditions are firm, and there are those who can play both ends of the manipulation game if that is necessary. But it is discouraging to find the packers themselves undermining the "stability" to which they have all pretended to aspire, and have blamed the growers for not furnishing. Now that they have got it, they are the first to throw it away. If there is any chance that some one else might share the profits.

The raisin business is a business. Out for business men to run it!

### REVEAL MYSTERY OF "SOUL KISS"

European Dancer Scores a Great Hit.

Bungling Work of Orchestra Spoils Efforts of Singers.

How long and unthinkingly have we rattled on about "affinities" and "soul kisses" without really analyzing these alluring terms and ascertaining their origin. It took a trip to Hades with a very fascinating Mephisto to lead the way through fascinating mazes to enlightenment most of us. There was a capacity house, the Horton last night waiting to unravel the mysteries of this soul kiss business. Some of it was good, some of it was bad, but it was all amusing, harmless and entertaining.

It is not called a musical comedy, but a musical entertainment. It was an entertainment and the music was pretty, but the orchestra bungled it so badly that even the principals, who could sing (and there were several) had hard work to make anything like a success of the songs.

The feature of the show was the dancing of the European danseuse, Miss Bertina, whose act was included in a unique role. She did not speak a line. All of her acting was pantomime and then she danced.

The part which she took was originally written for Miss Genevieve, a famous ballet dancer who is starring this season on Broadway in "The Silver Star." In so far as a thing of this kind can be a success the second season with a substitute for the original star, "The Soul Kiss" makes good, but the production as a whole shows the stains of travel and usage. The beauty chorus was a press agent's dream, but the scenic effects were spectacular and pleasing.

Hen Grinnell as Mephisto was the chief attraction of the cast after the dancer. His bit of philosophy delivered at the rise of the second curtain as he looks over Earth by night was dramatic, but not more so than his recital of "There Were Actors Then." His impersonation of Mephisto was exceedingly interesting. He was in fact the only real "live wire" in the company and kept the play from falling into hopeless mediocrity.

Miss Dye Barry had the only good singing voice in the company and fortunately had several charming songs fall to her lot. The other principals were not more than average with the exception of Mr. Hull, who sang well and showed an enthusiasm in his role that redeemed some otherwise dull scenes.

Miss Bertina really dances beautifully and was generous in her exhibitions of her skill. Had the orchestra been more efficient she would have had a greater inspiration to dance. Her dancing was truly marvelous and in everything she did she showed daintiness and grace.

Of the chorus numbers the array of broilers as French poodles was a unique conception that proved very attractive. Miss Hull in her Harry Lauder songs was very pleasing and one wished she had more to do. Perhaps the "Devil" did not make such bad use of his "affinities" after all. At any rate he was a clever devil and between his wily smile and diabolical laughs threw out some choice bits of philosophy that relieved the objectionable features of the performance.

### 7-YEAR-OLD BOY OUT ALL NIGHT

After wandering aimlessly about in the country and various parts of the city during all of Thursday night, 7-year-old Frank Hankins of 331 P street, was found in the court house park yesterday morning. He was returned to his parents very much against his will. A few hours later he tried to escape from the yard, but was prevented by his parents.

### GOOD GOVERNMENT COMMITTEE MEETS

The executive committee of the Good Government League held a meeting last night to determine the course to pursue in reference to the mayor's veto of the proposed anti-saloon ordinance. A committee was appointed to prepare and present at a future meeting a set of resolutions. President Wallace stated after the meeting that there was nothing to give out.

### MANTELL WINS.

SACRAMENTO, Nov. 19.—At Nell's seconds the up the spencer in the "twelfth round tonight and gave what was to have been a twenty-round go to Frank Mantell of Rhode Island. Mantell had his man from the start. Nell appeared in poor condition and apparently through with the fighting game.

### IT'S YOUR MOVE.

LEXINGTON, Ky., Nov. 19.—Frank J. Marshall of New York tonight again defeated J. W. Showalter of Kentucky in the American chess championship series. Showalter resigned after the sixty-second move.

Marshall has won four games, Showalter one, and three were drawn.

### MURDERER STILL ELUDES PURSUERS

Nothing Definite as to the Whereabouts of Kerfoot.

Rumor That He Had Killed Three Officers Without Foundation.

A persistent rumor was current about the slayer last night that Kerfoot, the murderer of Harold R. Brown, had been cornered by the police a few miles in the country and that a running fight ensued, in which Patrolman Harry Knight had been instantly killed and two other officers fatally wounded. Scores of shots were exchanged with the murderer, who eluded his posse and made his escape under cover of darkness.

The rumor proved to be a canard, as the authorities have found no further trace of the fugitive. Patrolman Knight was walking his beat continuously and dutifully, suppressing crime thereon, during all of the evening. One Knight (littered) planned fraudulently to keep Kerfoot in the dark of the whereabouts of the slayer. It was ascertained by Frank Truxa that the alleged police man was on his beat, hale and hearty, and had not participated in the slaying of excitement during the night. The inquiry hung up the phone much relieved that his old friend was still in the land of the living.

Investigation revealed the fact that all of the remaining officers on duty at night were moving slowly but surely along their respective beats. No one had seen any desperado that answered to the description of Kerfoot.

This another tale rumor was pulled to the must. It started, nobody knows, but once commenced it spread like wildfire over the city. Many of the officers held the opinion that the murderer is many miles from Fresno. Some think he may still be in hiding in the mountains, or in the case of continuing him to earth has not been given up and the police detectives are still hopeful of landing Kerfoot behind prison bars.

It is said to be a member of the Modern Woodmen of America, who is believed that some trace of his whereabouts may be secured through this means. Should he apply to any of the Woodmen lodges for financial assistance he might be recognized. That Kerfoot had a considerable sum of money when he left Fresno is the belief of the officers. He probably walked to some nearby town and then boarded a train for some distant city.

### CHILE WISHES TO ARBITRATE CLAIM

Bill for a Million and Half Has Remained Unpaid Since War With Bolivia.

SANTIAGO, Chile, Nov. 18.—The Chilean government opened negotiations with Washington today with a view to submitting the Alsop claim of the United States against Chile to a specially constituted court of arbitration at The Hague.

The notification to Chile, which is looked upon here as an ultimatum, has been seized upon by the sensational press as a cause for public agitation. As a result the merchants are alarmed, and the feeling aroused against American imports adversely.

WASHINGTON, Nov. 18.—While the officials of the State Department have not been officially advised of the reported willingness of the Chilean government to submit the Alsop claim to arbitration at The Hague, they are gratified at the news contained in the Associated Press dispatches that the Chilean government has expressed a willingness to submit the matter to The Hague.

Senator Cruz, the Chilean minister referred today to discuss the crisis.

HISTORY OF CLAIM.—In 1874, the Alsop Company of New York and Connecticut obtained a large sum of money to the Bolivian government in exchange for the right to operate valuable guano deposits and other concessions in that country. The government contracted to return a portion of the loan from the receipt of customs at the port of Arica. Before the contract could be fulfilled, Bolivia lost Arica and the adjoining district to Chile in war.

In 1885, following representations by the American State Department, Chile agreed to assume the obligations of Bolivia to the Alsop Company. She has never, however, made good her promise and the matter has been the subject of diplomatic negotiations ever since.

The claim now amounts to more than \$1,500,000.

AMERICANS ALARMED.—SANTIAGO, Chile, Nov. 18.—Great anxiety was felt here because of the notification through Chilean Minister Cruz at Washington that the United States would close its legation at Santiago for a few days until the Chilean government made an adjustment of the Alsop claims, or agreed to refer the dispute to The Hague.

The art of serving your dinner is second only in importance to that of good cooking.

All your needs in silverware, the most beautiful cut glass, then, for example, carvers that are genuine, good and yet beautifully made.

Our stock sees it the useful and ornamental.

### BOYS FORM CLUB AT KNOX CHAPEL

Charter Membership Is Fifteen; Society to Promote Sunday School Work Among Youths.

Fifteen youths, residing in the southern part of the city, met last evening at the Knox Presbyterian chapel, corner M and Los Angeles streets, and formed a club to promote Sunday school work. After a lengthy discussion, it was decided to designate the organization as the "Knights of St. Paul." The K. S. P. will be an auxiliary to the regular Sunday school class, which meets at 5:30 p. m. every Sunday.

Battle Whelan was chosen president; Edgar Leal, vice president; Lemmie Williams, secretary and treasurer; and Noah Chapman, sergeant-at-arms. By-laws were adopted. The purpose of the club is to build up the Sunday school, to give socials for the benefit of other boys, as well as the K. S. P., to help the other boys of the community and to prohibit cigarette smoking.

If a member is absent four successive meetings without good cause, he shall be suspended from the organization. The age limit is from 11 to 18 years, inclusive. The society will meet at 7:45 o'clock on Friday evenings. The dues shall be 15 cents per month. Committees for the purpose of giving socials, etc., shall be elected by the organization members. The first and third Fridays of each month were set aside as the regular meeting nights of the society. However, the members are expected to attend Sunday school regularly.

The charter members are: Battle Whelan, Edgar Leal, Lemmie Williams, Noah Chapman, James Laudy, Gerald Triplett, Vard Shann, Clifford Warner, John Douglas, Theron Triplett, Higbee Williams, Elmer Whelan, Paul Mansley, Harold Franks and Harvey Richards.

Buttons with the initials, K. S. P. will be secured for each of the fifteen members and efforts put forth to increase the membership, each addition getting a button.

### MASTER MECHANIC SHOWN INCOMPETENT

Naval Constructor at Mare Island Is Summarily Dismissed from His Position.

WASHINGTON, Nov. 18.—As a result of an investigation of imperfect boiler work on the armored cruiser West Virginia, the Navy Department has decided to order the dismissal of Edward Kavanagh, master boiler-maker of the Mare Island navy yard at San Francisco, and his acting assistant, Joseph Volck.

This investigation is said to have shown that these men were inefficient, and that since their transfer from the steam engineering division of the yard to the combined manufacturing department, they have not shown the desired interest in their work.

### TESTS AEROPLANE WITH AUTO POWER

Phoenix Man Accomplishes Successful Flight Without Motor on Board Airship.

PHOENIX, Ariz., Nov. 17.—Gates M. Fowler of this city, who has been experimenting with and studying flying machines for a long time, has constructed the experimental point an aeroplane after his own ideas. He has not yet secured a motor but in his preliminary trials attaches his "Desert Eagle" to a cable to an automobile. Today he made a trial flight with a greater measure of success than he anticipated, remaining in the air for two hundred yards.

The special difference between the Fowler pattern and those of the Wrights and Curtiss are that Fowler's planes are built with flexible curves instead of straight lines. He also has by the driver, operated automatically by the driver, which saving pendulum fashion, tending to overcome changeable air currents and preserve the equilibrium of the machine.

### RECORDS MADE IN HIGH FLIGHTS

BOLLY, France, Nov. 18.—Competing for the Walker height prize for heavier-than-air machines, Hubert Latham today in a monoplane ascended 4345 feet and M. Paulhan, in a biplane 4281 feet. Both are world's records.

Orville Wright made an official flight of 100 feet at Portland in October.

GOVERNMENT SUSTAINED PARIS, Nov. 18.—The general discussion of the budget closed tonight with a vote of confidence in the government.

## Social and Club News

Parish Hall was filled to overflowing last night with an interested audience gathered to enjoy an evening of splendidly prepared music and fun. The evening was arranged by the choir of St. John's parish under the able direction of the director, Miss Catherine Balthis. For some weeks rehearsals have been going on under her supervision—and jolly occasions they were—the excellent work done resulting in an excellent performance last night. With an able cast of musicians and a clever little musical farce was presented called "A Night at Singing School," or "The Peppery Pa."

Before the curtain rose on the operetta there were some excellent concert numbers given, beginning with the pretty Irish swing song "Shoogy Shoe" by Grace Mayhew, sung by Thomas Birmingham. This was charmingly illustrated. The stage was set for an out-of-door scene and the curtain rose upon Miss Florien Adair and Herbert Jones swinging in a swing of flowers and in pantomime illustrating the song very fetchingly. Mrs. William Forsyth read Rulver Lytton's beautiful "Aux Italiens," with

musical interpolation given behind the scenes, which was tremendously effective. Dr. W. W. Craycroft and Miss Catherine Balthis sang the duo from the Miserere of Il Trovatore with fine effect. Always a sympathetic interpreter, Mrs. Forsyth read with exquisite feeling this romantic number and for an encore presented a clever little French selection.

Dr. Craycroft contributed a vocal solo, "Silver Threads Among the Gold," a familiar song which bears repetition, especially when so well suited to the ability of the singer as it was to Dr. Craycroft, who brought out all its sweet sentiment. A chorus behind the scenes aided the effect of this number. As a second number, "Forgotten" was sung.

Miss Catherine Balthis next appeared singing Ardit's famous waltz song, "Il Ballo." The flexibility and sweetness of her well trained voice was shown to decided advantage in this inspiring number which demanded an encore.

While the stage was being prepared for the operetta, Miss Hazel Lynch, the capable young pianist of the evening played three numbers, "Valse," "Poinconetti," by Durand, and "Po-

lish Dance" by Scherwenka, which were greatly appreciated.

The curtain rose to disclose a school room scene in which all of the necessary appliances formed a part of the realistic stage setting, including blackboards, maps, etc. Miss Ursula Chartrand had assisted Miss Balthis in the stage direction responsible for the smoothness of the entire performance. The costumes were exceedingly effective and harmonious and a number of effective drills and choruses had been introduced.

Maurice Morphine as the school master, showed heretofore undiscovered talent as an actor, his reputation as a singer, having previously been firmly established. Will Spence carried off the comedy honors with well deserved success in the role of the singing master and John Birmingham as the "peppery pa" created a sensation whenever he appeared.

J. P. Meschery's presentation of "Milk" was excellent and gave opportunity for a clever song and chorus. Master O'Neill as the misanthropic miser gave rise to the cheering chorus, a leading amateur of much promise.

Mrs. F. M. Lane in the subordinate part of Fannie displayed a decided gift for dramatics, and Miss Meschery as Betty, the school master's favorite, scored a success. Lucille Curran, Miss Elva Otto, Miss Genevieve Crowley, Miss Mary McKenzie, E. Dougherty, C. Birmingham and E. Birmingham completed the cast of principals.

The sneezing chorus was one of the successes of the musical program, but it was difficult to single out any one number for special mention, as each seemed to have a particular charm of its own.

The whole affair was an immense success and credit is due upon Miss Balthis, who so capably managed it and directed the music and personally looked after the costumes. The chrysanthemum drill and bonnet chorus were especially good.

John H. Hutchinson, who has been spending the summer and fall in the mountains, returned to Fresno yesterday and is with his mother at the St. Andrew apartments.

Miss Nan Duff, a charming Kentucky girl and a cousin of Dr. H. C. Cockrell, is coming to spend several months with Dr. and Mrs. Cockrell. She is expected in several weeks.

Miss Agnes Rushen and Melvin Rushen of Sebastopol are guests in the Allen McNab home in Temperance colony. The wedding of Mr. Rushen and Miss Hattie McNab will be an event of next Wednesday afternoon.

Mr. and Mrs. J. B. Hickman entertained at an informal Dutch dinner last night at their home on K street. The table was laid in quaint Dutch fashion and the menu consisted of the sort of accomplished cook, whether Dutch or otherwise. Pretty, old-fashioned marigolds formed the centerpiece of the table about which were gathered the host and hostess, Mr. and Mrs. C. L. McLane, Mr. and Mrs. Frank Lyman, Dr. and Mrs. J. M. Craycroft, Mr. and Mrs. H. V. Arncliffe, Mr. and Mrs. W. L. Collins, Mr. and Mrs. J. D. Hickman and Miss Troubridge.

Mrs. William C. Miles leaves today for Oakland to spend Thanksgiving with her sister, Mrs. Harry Maxfield. Mr. Miles will join her over the holiday. The Maxfields have recently completed a handsome new home on Vernon Heights in Oakland which is always hospitably opened to their friends.

This afternoon at St. Paul's M. E. church the young women of the Episcopalian Circle are to give an entertainment to raise money for a new carpet to be used in the Sunday school room. It is to be a "talent social," each member telling how her talent was increased. An admission fee of 25 cents is to be charged and an invitation has been extended to the public in general.

The Friday club met yesterday with Miss Isabel Clark to take up with Mrs. W. P. Miller the study of the Agamemnon Trilogy of Aeschylus. An outline of the historical situation and characters in the first book of the trilogy was taken up before the reading, which occupied the rest of the session. The club will not meet next week, but will continue this study at the following meeting a week later.

The Home Department of the Puritan Lecture club enjoyed a delightful afternoon yesterday at the club house as the guests of the section of the department of which Mrs. Frank Mault is chairman. The department combined practical industry yesterday with their good time and each member who came brought some article of fancy work to be donated to the December bazaar. This bazaar is to be held on December 8th and 9th in the club house, and is the largest thing in clubdom just now. It is for the purpose of raising money toward the new club house and the public is asked to give its patronage.

The Home Department decided to give yesterday to this work and a great many lovely fancy articles were finished. The ladies gathered in the library, which was beautifully decorated for the occasion with autumn leaves, chrysanthemums and roses in a riotous mass of exquisite coloring. Burfield's orchestra dispensed music throughout the afternoon and the fair wound up with a jolly Virginia reel.

Delicious refreshments were served in the banquet hall after the work began and have been sold since. The hostesses with Mrs. Mault were Mrs. A. B. C. Clark, Mrs. Pete Drouge, Mrs. William Dick, Miss Jennie Dore, Mrs. Doughton, Mrs. C. H. Hollings, Mrs. Siler, Mrs. Will White, Mrs. L. E. Jew, Mrs. W. W. Eiden, Mrs. J. H. Bean, Mrs. John Fairweather, Mrs. Will Fisher, Mrs. F. A. Fohn, Mrs. Graham, Mrs. George Gilbert, Mrs. Frank Hanson, Mrs. Hanger, Mrs. Albert Hall, Mrs. T. J. Hammond and Mrs. Howester.

**CAST OF A DEATH STRUGGLE**  
In the museum of Alcatraz there is one object which is unique in the world's list of curiosities. It is a plaster cast of the martyr Gerónimo in the agonies of death. The Alcatraz put Gerónimo alive into a soft mass of concrete which presently hardened into a block and was built into a fort.

This was in 1899 and about forty years later a Spanish writer described the event and told exactly how that particular block could be located. The fort stood for nearly three hundred years. Then in 1893 it was torn down, the block was identified and broken open and an almost perfect mould of the dead martyr was found within.

They filled the mould with plaster and the result is a wonderful cast. It lies there in the museum today, face down as the dead hands and feet bound and straining, head twisted to one side in the supreme torture of that terrible martyrdom.

"It is a gruesome, fascinating thing," writes Albert Wilson Phillips in Outlook. "and you go back to look at it more than once and at one time should sprout a little bit of discontent with the present state of affairs in the country."

"and you go back to look at it more than once and at one time should sprout a little bit of discontent with the present state of affairs in the country."

## BURGLARS MAKE VISIT TO VISALIA

Spend a Night Looting Two Stores.

Goshen Man Is Declared Sane After an Examination.

VISALIA, Nov. 19.—There is yet no trace of the burglars who last night or early this morning looted the largest clothing store and the Home Bakery, which they entered by jumping shutters and doors with chisels obtained from the local blacksmith shop.

The office door of the shop was pried open with a hatchet and the safe, which was found unlocked, was riddled, the inside drawers being forced. There were only a few stamps and some papers, which were not taken. The papers were found this morning littered about the floor. Tools were found in place, but only two chisels were taken.

It is supposed that from these burglars visited the Home Bakery, where ingress was obtained through a door in the board fence on Center street, and the prime open of two doors, fastened with bolts.

When an employee opened the door at 5 o'clock this morning he discovered things in a topsy-turvy condition, the cash register open, from which about \$5 in money had been taken. So far as known nothing else, with the possible exception of cakes and pastries, had been removed. Word was telephoned to Chief De Val of the police department and an investigation started.

Two hours later, when the largest store at Main and Locust streets was opened, it was found that the place had been ransacked and a quantity of goods stolen. An examination disclosed the loss of two overcoats, several pairs of trousers, vests and coats, two pairs of shoes, two suit cases, a quantity of jewelry, consisting of gold watches, silverware, gold rings and chains, and \$10 from the cash drawer, also some toilet soap.

Entrance had been effected through a rear shutter, which had been pried open and the window shaved up. A chair placed in full view of the front door had been used by the burglars in which to sit while they tried on various pairs of shoes. An old pair was left on the floor. News of the burglary and a description of the goods taken has been telephoned to various parts of the country.

James R. Neal, who resides on a 150-acre ranch near Goshen, was examined this afternoon for insanity before Judge Wallace by Drs. Patterson and Harris, found sane and was ordered by the court discharged. Neal had threatened his wife with a revolver and, in fact, had snatched it at her several times. It contained one cartridge which the hammer did not strike. A daughter snatched away the

pistol. Asked why he had used the weapon, Neal said that he had tried every other means to govern his wife and failed. He admitted he was afraid of his testimony caused amusement. The affair seems to have been more in the nature of a family row than anything else. Neal has been ill, but appears to be better.

Dr. and Mrs. L. E. Carter are home from a trip into Central America, and relate experiences that would fill a bound volume. They were in Bluefields when that city was captured by the insurgents, which they did, they say, with "in brass tone and without firing a shot." He witnessed more or less shooting, but says that the Nicaraguans are bad shots and that few were hit.

He and Mrs. Carter were on a vessel while the recent great storm raged on the Gulf and reached port after it had been given up for lost. He says also, that he attended the first election to have been the first electrical storm in New Orleans in twenty years. He says he was standing by a window when a church was struck a short distance away and burned to the ground. The doctor says that war in Nicaragua is highly amusing, but somewhat dangerous, and he is glad to be back, although declaring that the trip was "great."

BY WAY OF CHICAGO

A pupil of one of the public schools in Chicago sent this communication: "Dear Sir: In our school this morning an amusing dialogue took place, and to impress on her pupils the necessity of greater quiet, said:

"I am a great deal larger than any of you, yet I don't make any noise. When I walk around the room," "Perhaps," remarked little Tycor, "old Kenneth, you don't wear shoes?" "Oh, yes, I do," quickly replied the speaker, "just look. Did you ever see any larger than mine?" Kenneth surveyed them carefully.

"Yes," he replied slowly, "once—in a show." Waverly Magazine.

## FOR RHEUMATISM and Uric Acid Ailments

The medical fraternity as well as a vast majority of the laity are already cognizant to the fact that Rheumatism is caused by Uric Acid Poisoning and as a result of this much time has been spent in an effort to produce a remedy that would carry this poison from the system and thus rid the human body of perhaps the most painful ailment with which people are today afflicted.

We know of no remedy better calculated to produce these results than Rexall Liver Salts. The Liver and Kidneys must be in perfect order in order that the Uric Acid may be taken from the system, and this preparation, working directly on these organs, corrects the disorders that eventually end in Rheumatism.

We know this preparation to be all that is claimed for it—to be prompt and efficient in results, and want you to try it on our personal guarantee.

## MACKAY DENIES HE'S IN COMBINE

Holds Stock in American  
Telegraph Company.

Competition Will Continue  
and It Will Be of the  
Real Kind.

Charles H. Mackay, as president of the Mackay companies, has sent out from New York over his name a demand that they are in any manner connected with the telegraph company, and that the American and Western Union companies. The demand, which was sent out from the New York headquarters, is as follows:

"We have nothing to do, either directly or indirectly, with the telegraph company of the American Telephone and Telegraph Company, with the Western Union Telegraph Company. We have not wished to join it, nor have we been invited to join it. There have been no negotiations whatsoever with us in regard to the matter, and there is every reason why we should not have anything to do with it. We know nothing about it until the day when it was publicly announced.

"It is true that we own a large block of stock of the American Telephone and Telegraph Company, but that is one of our many investments. We never have had and have not now any representation on the board of that company and our stock is not considered or purchased any more than the stock of any other stockholder, as you will see from the fact that we know nothing about it until it was publicly announced.

"The statement that Mr. William H. Barker represents us is incorrect. He does not represent us in anything in the slightest degree. Neither have we had anything to do with the purchase of telegraph companies in the middle west. Our company is slow and conservative in its investments, but swift and aggressive in its service. We are not disturbed in any way.

"We have successfully met hard competition for over twenty years and have prospered and are in first-class financial condition better than ever before. We have waited until this matter had run down so that we could make one statement covering the whole subject. As I stated several weeks ago, competition will continue, and it will be real competition, the same as heretofore."

## NO FOOTBALL GAME AT HANFORD TODAY

"Rough-House" By Juniors Results in  
15 Suspensions; Four of These  
Members of Team.

Because one-half of the members of the junior class of Fresno high school were under suspension for creating a disturbance during the progress of a rehearsal for a senior farce, the school board today announced that the football game between the Juniors and Fresno high schools will not be played today. Four of the regular players are among the suspended players. As a result, the game to have been played at Hanford was canceled by Manager Bud Gearhart last evening.

Principal A. C. Olney has suspended fifteen juniors for an indefinite period. Four of these fifteen are members of the football squad. These are: Edgar Grimes, half back; Tom Tufts, tackle; Edgerly, half back; and Darkhouse, end. Quarterback Doc Olufs was not among the suspended, but he is unable to play, even though the four scrappy players had not been "roughed." Captain Olek Crawford and Manager Gearhart are juniors, but they were not among the unlucky fifteen. Crawford stated last night that several substitutes on the eleven are juniors and these were among the "roughed." For this reason, it was deemed necessary to postpone the trip to Hanford.

The lucky fifteen members of the class of '11 held a lively session yesterday afternoon and unanimously passed the following resolution:

"We, the junior class, extend our heartfelt sympathy to the bereaved boys of the class of '11 who made such a hasty exit yesterday afternoon, November 18, 1909."

(Signed) "JUNIOR CLASS"

The trouble occurred Wednesday evening, while a few seniors were rehearsing for a farce to be put on in the assembly hall later in the season. Fifteen pharisee-seeking juniors gathered at the building and quietly sneaked to the second floor, believing that the seniors were holding a big feed. Then on getting some of the good things, the juniors rushed through the big doors right into the midst of the frightened seniors.

But much to their surprise, they found nothing to eat. Disappointed at their luck, but determined to have some fun, the big fifteen snatched a large picture from the wall and hung it in place a conspicuous sign reading, "11."

When school convened Thursday morning, Principal Olney took a hand in the fun-making and placed fifteen juniors on the shelf for an indefinite period. Incidentally, he slipped the crusher on the Purple and Gold football team.

## BIG INSURANCE SUIT.

KANSAS CITY, Nov. 19.—A suit was filed here today against the Union Life Insurance Company to collect unpaid stock subscriptions of \$175,000 and asking the appointment of a receiver. W. S. King of Memphis, Tenn., and eleven other stockholders from various portions of the country are plaintiffs and seventy-three persons who had subscribed for stock are defendants.

The principal reason for the company's failure, the petition states, is that the state requires a deposit of \$100,000 more the company can begin business. The company was organized in October, 1907.

Judge Purk reserved decision of naming a receiver.

## WRECKED MEN REACH PORT.

BALTIMORE, Nov. 19.—After being forced to abandon their ship, which ran aground on the coast of Canada, and flee for three days on the deserted shore during the height of the recent West Indian storm, the members of the crew of the fruit steamer Astoria, which is a wreck on the sands at Buff Bay, Jamaica, came to this port on the steamship Salvatore di Giorgio today. In spite of their tiring experiences the men are in good health.

## GETS TWENTY CENTS BACK FROM CO.

Woman Not to Be Beaten By a Smart  
Street Car Conductor Out of  
Small Sum.

NEW YORK, Nov. 19.—With a quarter in her hand and a baby in her arms, a woman got on a pay-as-you-ride car at Third avenue yesterday. Not understanding the formation of these conveyances, she hurried the quarter in the box and demanded her twenty cents from the conductor.

"You don't get no change from me," he said. "Go on up to a Hundred and Tolmest street for your change."

Not soothed by these words, the woman replied:

"That ain't no funner of mine," was the reply.

Then the woman showed her presence of mind. She took her stand on the back platform. To each man who boarded the conveyance, she explained the expediency of her case and promptly collected his fare. When she had netted twenty cents she walked into the car and sat down. And as passengers got off, they carefully studied the conductor.

## WISH WALSH'S BAIL INCREASED.

CHICAGO, Nov. 19.—The government attorneys appeared today in the U. S. circuit court of appeals to increase the bail of John E. Walsh, for not appearing at the Chicago Superior court for a hearing of his appeal. The motion was taken under advisement. The prosecution wants the bail to be increased to \$25,000.

Walsh was convicted of manslaughter of the funds of the bank and is under sentence to the penitentiary.

## PROMINENT LUTHERAN DIES.

## KILLED BY FORMER PARTNER.

HOUSTON, Tex., Nov. 19.—Wesley Plades, a merchant, was shot and killed by W. C. Wesley, his former partner, in an artist's studio early today.

## ASTOR'S VESSEL

MAY BE SAFE.

Ship at Anchor in Reef  
Harbor of West Indies  
Is Thought to Be His.

NEW YORK, Nov. 19.—Some assurance that Col. John Jacob Astor's yacht, the Nourmahad, which has been missing in West Indian waters for ten days, safely outside the hurricane belt, was brought here today by Captain J. Dorn of the steamship Annetta, which arrived with fruit from Jamaica.

The first steamer passed within three miles of the yacht, a large white steam vessel with yellow funnels and about the size of the Astor yacht. The storm had not yet reached the harbor on Sunday, when the steamer passed San Salvador. But heavy weather still prevailed. The yacht showed no signs of distress and Captain Dorn thought it had put into port before the hurricane and was waiting more favorable weather.

Col. Astor's friends were inclined to doubt that the yacht seen by Captain Dorn was the Nourmahad, as San Salvador is nearly 200 miles north of the region where Colonel Astor planned the cruise.

The first steamer passed within three miles of the yacht, a large white steam vessel with yellow funnels and about the size of the Astor yacht. The storm had not yet reached the harbor on Sunday, when the steamer passed San Salvador. But heavy weather still prevailed. The yacht showed no signs of distress and Captain Dorn thought it had put into port before the hurricane and was waiting more favorable weather.

## WEEKLY REVIEW OF THE TRADES

NEW YORK, Nov. 19.—Bradstreet's tomorrow will say:

With the arrival of cold weather this week, retail trade, hitherto inclined to lag, has taken on the appearance of activity and distributive trade reports are more uniformly encouraging than for some time past.

In some sections, particularly the Northwest, the temporary effect of heavy snow interrupting the transportation to some extent has been felt in some lines of wholesale trade, but the general effect of the winter visitant has been helpful.

From the industrial field generally, the report is of large output and in some cases, as in the Western shoe trade and the automobile industry, extra time is being run. The railroads are buying freely of equipment and track material.

The timber trade is reported good as a whole, though there are some scattered complaints from the South and the North Pacific coast.

Business failures in the United States for the week ending with November 18, were 222 against 221 last week, 273 in the like week of 1908, 265 in 1907, 221 in 1906, and 221 in 1905.

Business failures in Canada for the week number 26, which compare with 29 last week and 33 in the corresponding week of 1908.

Wheat (including flour) exports of the United States and Canada for the week ending November 18, aggregate 8,145,598 bushels against 6,554,474 last week and 6,508,314 bushels this week last year. For the twenty weeks ending November 18, exports are 61,434,706 bushels against 57,315,189 in the corresponding period last year.

Corn exports for the week are 140,407, against 258,818 last week and 239,737 in 1908. For the twenty weeks ending November 18 corn exports are 2,421,865 bushels against 2,811,227 last year.

NEW YORK, Nov. 19. R. G. Dun & Company's Weekly Review of Trade tomorrow will say:

Monetary anxieties have faded and business generally is more cheerful. Some serious problems appear, one of them being higher prices in many of the markets, but these are in process of adjustment. The copper industry, so long under the depressing influence of a tremendous production, will be favorably affected by plans for bringing the trade under better control. Reports from various trade centers continue of the same general nature.

Some fall in the demand for pig iron is offset by continued heavy purchases of finished material, advancing prices, and reports are not infrequently of preliminary being paid for prompt delivery. Hoarding of rolling stock and other equipment by prominent railroads is a conspicuous feature and some congestion is noted at car shops.

Trade continues steady with dry goods, jobbing houses and stores many evidences of broadening in retail channels. Prices continue to rise, advances in prints having been announced on Monday. Advances were made unannounced in other lines. Cotton prices continue to have a direct influence on goods and manufacturing interests are becoming more and more conservative in building up stocks. This is causing merchants to restrict sales to spot and nearby deliveries. Some good sales of prints for shipment to Manila have been made, but export trade generally is quiet. Underwear and hosiery lines for fall are being opened and initial orders at the necessary advances are of a moderate character.

Trade in shoes steadily expands and the market is firm with buyers obliged to meet the advances. Calf leather shoes are especially high. The entire leather market is in a decidedly strong position and stocks of about all varieties are close held up. There is a constantly stiffening tendency in all varieties and prices are materially higher than they were two months ago. The packer hide market continues to be strong. The country hide is still easy. Declines have occurred in some varieties of foreign, but there have been advances in other descriptions.

## EDITOR LAFFAN OF N. Y. SUN DIES

Had Been Connected With This Noted Metropolitan Newspaper Since 1877.

NEW YORK, Nov. 19.—William F. Laffan, publisher of the New York Sun, died today at his home in Long Island, following an operation for appendicitis performed on Monday.

William Laffan was the successor of the late Charles Dana in the management of the New York Sun and the publisher of that newspaper for the last twenty-five years. His home was in Lawrence, L. I. Laffan was born in Dublin, Ireland, sixty-two years ago, and after completing his studies in Dublin University came to this country.

In 1870 he was made managing editor of the San Francisco Bulletin, but two years later removed to Baltimore to become editor and half owner of the Baltimore Daily Bulletin, subsequently acquiring full ownership of that paper. While in Baltimore he married the daughter of Judge Daniel Batcliffe of Washington, D. C.

Laffan was recognized as an authority on wood engravings and their use in printing. In 1905 he directed the work of cataloging the Chinese porcelain in the Metropolitan Museum of Art, of which he was a trustee.

His first connection with the Sun dates back to 1877, when he became its art critic. In 1884 he was elected publisher of the Sun and in 1900 purchased the interest of the estate of Charles A. Dana in the Sun Printing and Publishing Association, and became president of the association.

**\$50,000 MORE FOR AVIATION WEEK**

Los Angeles Business Men Expect to Attract 100,000 Visitors to City During January.

LOS ANGELES, Nov. 19.—Through its board of directors which met last today, the Merchants and Manufacturers' Association of this city, holding the proposed aviation week in Los Angeles. The date was set for January 10 to 20, and the association agreed to raise \$50,000 to be added to another \$50,000 subscribed by Henry E. Huntington, the trolley magnate.

The affair will be made to take the place of the Fiesta de Los Angeles given annually in this city during the height of the tourist season, and it was accordingly stated by Secretary Zeelandelager of the Merchants and Manufacturers' Association that at least 100,000 visitors will be attracted to this city during the ten days of the meeting.

Already contracts have been made with a syndicate of French aviators using Wright machines and with two women aviators who will come from France.

Curtiss, Willard and Knabenshue, American aviators, also will be seen in the flights during the week.

Another feature of the meeting will be the bringing together here of twenty big balloons and the holding of balloon races in which some of the most celebrated aeromats of the world will compete.

**CHILDREN FOUND IN BLAZING HOUSE**

Mother Left Small Boy Tied to a Door Knob—Baby Dies in the Cradle.

INDIANA HARBOR, Ind., Nov. 19.—The screaming of children who were locked in a blazing home caused neighbors to rush to Mrs. John Kuran's residence here today. When they had broken in the doors, a baby girl had perished in her cradle and her little brother was perhaps fatally burned.

The boy, 3 and one-half years old, had been tied to a door knob by his mother to prevent him from playing with matches. He did not get the matches, but fire fell from the stove.

NEW YORK, Nov. 19.—Carnegie Vanderbilt was invited today by George J. Gould to become a member of the board of directors and executive committee of the Missouri Pacific Railway Company. Mr. Vanderbilt has accepted.

This is taken to mean in Wall Street that the Goulds and Vanderbilts have engaged in a closer working agreement and that interlocking developments in the railroad world may result.

## Mince Pie Time is Here!

In thousands of homes at the dinner hour, young and old hurry to get the climax of the feast, a slice of good, old fashioned mince pie.

You can have the most delicious mince pies with the least work by getting

## TEA GARDEN Mince Meat

the most appetizing combination for mince pie ever put together. Delicious, wholesome and good; every ingredient carefully inspected and prepared in kitchens of spotless cleanliness.

Tea Garden Mince Meat is put up only in glass jars with glass covers; no metal to corrode and thereby spoil the perfect contents.

Insist on Tea Garden Mince Meat; it costs no more than ordinary kinds, but oh! how different.

## Adler-Rochester Clothes For the Hundredth Man

### Style and Fabric

Adler-Rochester clothes, for 40 years have held the top place in America.

The output is limited. Only one in a hundred can get them. But that hundredth man will be repeatedly asked to tell the name of his Tailor.

The main charm of these clothes lies in their style and their fabrics. For the Adler-Rochesters spend \$30,000 per year on their designing department.

### Quality and Assortment

The time has arrived to buy your fall suit and overcoat.

No better clothes are sold anywhere than you will find in our splendid stocks.

We have a collection of Adler-Rochester Clothes from \$18 to \$40, representing the best clothes brains in the world.

We have the best of inexpensive business suits from \$12 to \$18.

## ARTHUR McAFEE

WE HAVE THE CELEBRATED MAKES. SEE THE NEW STYLES IN DERBIES, WE HAVE THEM FROM \$3 UP.

### VISIT ENGLAND TO STUDY NAVY

Chinese Commission in London to Get Pointers on the Building of War-ships.

LONDON, Nov. 19.—The naval commission, headed by Prince Tsai Chun, brother of the Chinese regent, arrived in England today to study naval construction with a view to modernizing the navy of China. Great importance is attached to the visit and the progressive movement which it foreshadows.

Full naval and military honors were accorded the commission at Dover, where they were met by representatives of the foreign office and of the admiralty.

The party will be received by King Edward at Windsor tomorrow.

**SURE RHEUMATIC BITTERS**

## Sad News FOR THE COPPER TRUST

Whatever is sent by wire can eventually be sent without wire—This is the great truth which is now revolutionizing methods in the scientific and engineering worlds. It is bad news for the Copper Trust, no doubt, but it will make life much more interesting for the rest of us.

## The Collins Wireless Telephone

THE GREATEST INVENTION OF THE CENTURY.

Intercommunication with the human voice over unlimited distance

## WITHOUT THE USE OF WIRES No Wires No Poles No Centrals

No construction to pay for; no franchise.

The Parent Company owning the basic patents on this wonderful invention which will displace the telephone, telegraph, wireless telegraph and all other methods of communication offers a portion of their capital stock to the public.

This stock will unquestionably be worth hundreds of thousands of dollars per share in a short while.

Remember the Parent stock of the present Bell Telephone. Prof. Bell had to beg the public to understand his plan. They said he was crazy. He had to beg them to buy his stock, every share of which is estimated to be worth now about \$130,000 per share.

**A Small Investment in the Capital Stock of the Collins Wireless Telephone Parent Company Today Will Absolutely Make You Independent for Life.**

If the wire telephone increased so enormously, with all the cost of poles, wires, construction, etc., just think for yourself the increase in the Collins stock without all these millions of expense.

### It Needs No Argument

FORMER FRESNAN  
KILLS GIRL WIFE

Also Fatally Wounds By-stander With Revolver.

Chas. Thompson, Now in Jail, Pleads Self Defense.

Charles Thompson, formerly an engineer in a local parking house, is in the Bakersfield jail, charged with the murder of his 17-year-old wife, Eva Thompson, who also resided in Fresno a few weeks last summer. Before her marriage to Thompson, she was a Miss Edith Gault of Stockton. For a year or more she was on the probation officer's list of San Joaquin county and permission from the officer had to be secured before the coroner's inquest held to Thompson could be performed.

The marriage occurred in Stockton three months ago. Thompson purchased tickets for Fresno, but while the bride and groom were waiting at the depot for the train to leave, the girl began crying and refused to come to Fresno. She returned to her mother's home. Thompson came to Fresno. The next day, he wrote a letter to the girl's mother, asking her to send his wife to Fresno. Two days later Eva arrived here. Then the Thompsons dropped out of sight.

Yesterday an Associated Press dispatch from Bakersfield related the killing of the 17-year-old wife in the cottage. Thompson, near the oil fields in Kern county, shot her and her husband for a second time, and when she refused to return to him, he shot her. That was Thursday night. The wound was fatal, the girl dying at 10 o'clock yesterday morning.

Frank Newton, a bystander, who attempted to act as peacemaker, was fatally wounded by Thompson in his jealous rage. He is not expected to live through the night. Thompson is in jail at Bakersfield. He claims he shot in self-defense.

H. S. SENATE DEBATES  
S. F. WATER SUPPLY

Favors Hatch-Hetchy Plan—Rejects Property Qualification for Voting.

The High School Senate last night in animated debate and debated two questions. The officers installed were: President of the United States, H. S. Hopkins; president of the senate, H. S. Hopkins; vice president, Hopkins of Wisconsin; secretary, Hopkins of Rhode Island; treasurer, Hopkins of North Carolina; librarian, Hopkins of Idaho; sergeant-at-large, Hopkins of Washington.

Referring President Levy, in an interesting talk, reviewed the accomplishments of the senate during his term of office. Death of Alabama followed with an enthusiastic talk regarding what he hoped to accomplish during his term of office.

Mr. Hopkins spoke, instructively, on monopolies and compared conditions in the United States with those fifty years ago.

The affirmative won in the debate. Resolved, that the city of San Francisco should be granted the use of the Hatch-Hetchy valley for its water supply. The speakers on the affirmative were Smith of Utah and East of Wisconsin, while on the negative were Hopkins of Nevada and Levy of Michigan. The second question, that California should have a property qualification for voting, was lost.

Lloyd Webster and Roy Prior were elected to membership.

**EARN MONEY AND WIN WAGE**  
"LISA, Ohio, Nov. 19.—Carl Livingston, one of two brothers who left here May 24th on a wager of \$1000 each that they could go to the Seattle exposition and return to Tulsa by November 25 with \$500 earned on the trip, arrived here today and claimed the stake. Herman, the other brother, remained in California, but sent word he would return in time to claim the wager. He has already sent in the \$500 that he was to turn on the trip.

**WOMEN ARE VICTIMS**  
INDOOR LIFE AND LACK OF EXERCISE CAUSES PILES  
More women than men have piles. It is because they do so little outdoor exercise and are so often constipated. There is a stagnation of blood in the lower bowel, and no amount of cutting or treatment with ointments and suppositories will remove this cause.

Dr. Leonard's Hem-Roid, an internal, tablet medicine, will permanently cure any case of piles, removing the cause. Price, \$1 at the San Joaquin Drug Co., fully guaranteed. Dr. Leonard Co., Station B, Buffalo, N. Y. Write for booklet.

SON, LONG LOST, IS  
FOUND IN PRISON

Charles Schofield of This City Finds Boy After Nine Years' Absence in Los Angeles.

Not having seen his son since he was half grown and then to meet him behind the bars of the county jail after a lapse of nine years, was the experience of Charles E. Schofield of Fresno, according to the Los Angeles Examiner of yesterday.

Schofield, who is a stock broker in this city, according to the account, found his son in jail on Thursday and immediately notified his father. He will return with his father to this city. Concerning the episode the Examiner says:

"The prisoner was Ray Schofield, who was charged with stealing from Joe Watkins. It was complained that Schofield had been sent to a stable with a newly purchased animal and on route he met another horseman. Being imbued with the horse-trading propensities of David Harum, he 'swapped' Watkins' mount for another and a bonus of \$15.

KENTUCKY HAS BIG  
CROP OF TOBACCO

LOUISVILLE, Ky., Nov. 19.—Kentucky's burley and other grades of tobacco in the 1939 crop will be the largest quantity ever known, nearly four hundred million pounds. This was announced today by those Louisville banks which have been gathering figures from their correspondents in the various counties where the weed is grown.

The burley crop, they announce, amounts to 200,000,000 pounds alone. Of this, between 55 and 65 per cent has been pooled with the Burley Tobacco Insurance company. Prices this year averaged from 12 to 14 cents, with 10 cents and 20 cents as minimum and maximum respectively. Loose leaf sales have come into popularity again, and warehouses of this type are being established in the various counties. From 10 to 20 acres, however, are not favoring pools and are selling individually.

DECLARES DAIRIES  
IN BAD CONDITION

State Inspector Murphy of Fresno Tells Creamery Operators of Need of Stricter Laws.

PORTERVILLE, Nov. 19.—In an address today before the all-Kentucky Creamery Association, State Dairy Inspector J. P. Murphy of Fresno pleaded for a more rigid system of dairy inspection. He declared that many of the dairies of the state were in bad condition.

RIDER RUNS INTO  
LAUNDRY WAGON

J. H. Shore, residing at The Waldorf, was painfully injured last evening about 7:45 o'clock when he ran into the rear end of a laundry wagon driven by W. Ball while riding at a rapid clip on his motorcycle. The accident occurred at the corner of O and Tulare streets. Shore was thrown heavily to the ground. His face was severely lacerated on one side and his arm was bruised in several places. Dr. Floyd Burke was summoned by Intendant Broad and the injured man removed to his room, where his injuries were treated.

GIVEN \$1000 MORE  
THAN WAS ASKED

PITTSBURG, Nov. 19.—Forced to give up her seat on an excursion train to an intoxicated mother, separated from her sick baby, who was on a seat with her, and ejected from the train by railroad men in a lonely stretch of country because she refused to submit to the alleged outrage, was the story submitted to a jury yesterday.

Mrs. Mary Crowley brought suit in a local court for \$500 damages against the Pittsburg, Cincinnati, Chicago & St. Louis Railroad company, the result being that the company, which men in the law awarded the plaintiff \$1000, more than she asked.

WANDERING CANADA  
INDIANS ROUNDED UP

WASHINGTON, Nov. 19.—"Rocky Boy's" band of Indians, said to belong in Canada, have been rounded up in Montana under the supervision of the Blackfoot Indian reservation, according to information received at the interior department. There are 122 persons in the band who have been moving around the country, destroying, it is said, the country.

When they were taken in hand their ponies were kept in need of subsistence and the bureau of Indian affairs here authorized the expenditure of \$100 for this purpose. The Blackfoot agency and next spring will be taken to the borders of the reservation.

**OYSTERS ON FLAT SHELL.**  
The waiter had taken a long time in finding the oyster, but he was well known to his guest, and his guest to him, that occasioned no comment. When the oysters were brought the waiter set them down before his customer and asked:

"Do you like them better that way?"

"The diner looked, but he didn't notice any difference. So he asked: 'What way?'

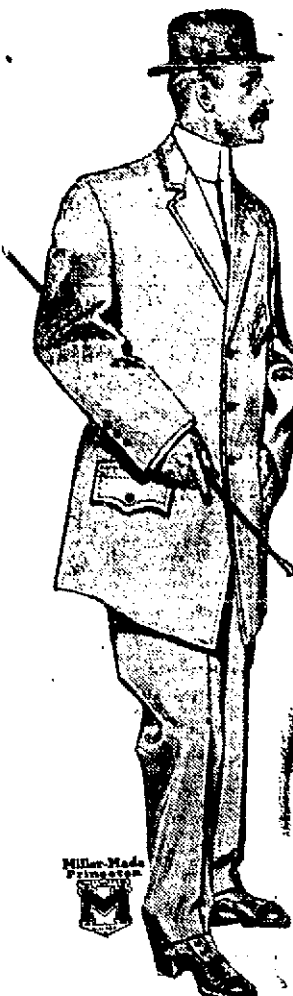

"Why, on the flat shell," replied the waiter, "the oyster is as usual."

"I see it now that you told me about it," said the diner, "but I don't exactly get the significance."

"Well, you see," said the waiter, "they always keep them upstairs on the round shell and when any one calls for oysters if they come on the round shell it isn't a certainty that they have been opened fresh. Sometimes they aren't good, just because they have been standing. When I call for them on the flat shell, as I do for some of my customers, then they have to open them specially for that order. In that way you get them fresh."

"Ah, I see," remarked the diner. But when he told the professional cynic about it, the cynic said something about betting that they kept them opened in both ways.

"Besides, you know they look fatter on the flat shell, which is all the more reason they'd be likely to serve them in some form that way. If they asked for extra large oysters, they'd get them on the flat shell. The same oysters on the round shell would go as extra large sized oysters," remarked the cynic gloomily.

You don't have to be a judge of quality in clothes to buy safely here; anybody can do it. You could trust your boy to come here to do his own buying; you might be really ignorant of values, and still be perfectly secure here. Because, you can't get anything here that isn't good. We haven't a poor quality in the place. You might make a mistake, or get something you decide afterward you don't want. But even then you're safe, our guarantee of satisfaction protects you from your own mistakes.

Our wonderful display of fine suits and overcoats is worth coming to see. Style, all wool fabrics, perfect tailoring and fit that's right.

## San Francisco Suits Reveal Scandal Concerning De-feat of Slot Machine Law

SAN FRANCISCO, Nov. 19.—In two suits, one of which has been submitted to Judge Truitt's department of the superior court and the other filed in the office of the county clerk, the plaintiffs have secured a victory in the law which will result in the defeat of the slot machine law in California at the last session of the legislature.

The first suit now under submission in Judge Truitt's court was brought in behalf of the August Hansen Printing Company to compel the payment of a printing bill incurred by the Mills Novelty Company, the concern which was the concessioner for most of the slot machines used on the Pacific coast. One of the items in the bill as specified in the suit is for printing election supplies for State Senator Richard J. Reich during the last state campaign.

The suit filed today seeks to collect from August Hansen the sum of \$1,500 and to be due the Mills Novelty Company on promissory notes. In his answer Hansen declared that the notes were procured by threats and coercion, based on the assertion that his business of dealing in slot machines would be ruined if he did not contribute to a fund which was being raised to fight legislation adverse to slot machines by the city of San Francisco and the state of California. The answer of Hansen stated also that M. A. Larkin, the local manager for the Mills Novelty Company, said to him:

"If you don't come up or dig up, we will drive you out of business."

At the time Hansen had sixty slot machines in operation. Later, according to his answer, he was approached

# PORTUGAL ASSERTS CLAIM TO MACAO

## Has Support of Great Britain in Pressing for Title to the Chinese Port.

LONDON, Nov. 19.—The Senate says today that the Chinese delegates to the Hong Kong congress having refused to recognize Portugal's claims in Macao or to submit the question to arbitration, Portugal, with the support of Great Britain, has opened four parties direct with China for the maintenance of the status quo.

The island of Macao, at the mouth of the Canton river, forms with the two small adjacent islands of "Papa" and Colone a province. The city of Macao is divided into two wards, one inhabited by the Chinese and the other by non-Chinese, each having its own administrators.

China holds that all the dependencies of the city of Macao have been occupied illegally by Portugal for some years and that the only concession of territory ever made to Portugal was the town of Macao, and she insists that the territory and islands be evacuated by Portugal. Some time ago the Portuguese government sent General Joaquim Jose Machado to China in the hope of reaching an amicable settlement of the dispute, but little progress has been made.

# BISHOP DEPLORES DIVORCE EVIL

## NEW YORK Nov. 19.—Bishop of the Methodist Episcopal Church, South, at Nashville, Tenn., has telegraphed his following opinion concerning recent divorce legislation.

"It is a generally accepted truth that sacredness of the marriage relation measures the civilization of any country. This is true nowhere without regard to race, color or previous condition. Judged by this standard, the outlook for our country is not encouraging. The divorce evil is increasing in the higher walks of life where there is most money and ought to be most intelligent and superior virtue, the sin and shame of divorce have increased alarmingly.

The severity of the proceedings is a feature that tell its own story. The hidden works of darkness are thus confessed. The remedy is with public opinion that will express itself in wider laws and a better practice among our clergy and civil officers."

# ALICE ROOSEVELT "DID NOT SMOKE"

## PASADENA, Cal., Nov. 18.—United States Senator Scott of Montana who, with Mrs. Scott, was in the chambering party on the Tied Frankenstein, Jun- ket to the Orient in 1908, indignantly denies that Mrs. Alice Roosevelt, daughter of President Roosevelt, smoked a cigar during the so-called royal reception at the bank of the emperor.

Franklin Edmund Roosevelt, former mistress of the palace in the Korean capital, published the statement regarding the late Mrs. Alice Roosevelt several days ago in Berlin. Senator Scott, who is a good friend of the Roosevelt family, said publicly that the statement was "grossly untrue."

"All hush," added Mrs. Scott. "Alice Roosevelt departed herself as a lady should."

# UNEQUIPPED VESSEL MAKES FINE VOYAGE

## PORT TOWNSEND, Wash., Nov. 19.—The little two-masted trading schooner Silver Wave, an arrival last night, twenty-two days from Nome, completed a voyage that it is declared has never been equaled under such unusual circumstances in the history of Pacific shipping. Sailing from Nome at a season of the year rated as dangerous for the larger or more powerful vessels, the little schooner negotiated the long passage of 2,800 miles with only one member of the crew of five an experienced sailor. The schooner was without the aid of navigating instruments, then, than a single compass and a clock made in 1860, so worn by years of service and lacking in desired information as to be almost wholly valueless. Ocean gales that have taxed the endurance of larger steamers were encountered again, and in spite of a series of difficulties and a few miles of what would have been a precise course by a vessel fully equipped for the voyage.

# RUSSIANS COLLECT TAXES

## ST. PETERSBURG, Nov. 18.—A special dispatch from Harbin, Manchuria, states that authorities in that city have adopted a more energetic policy since the visit of Finance Minister Kokovtsov. The police have been instructed to begin immediate collection of taxes from foreigners.

# The Best "Buy" In America

for the man who seeks clothes values is unquestionably STEIN-BLOCH SMART CLOTHES. We are agents in this town for these clothes, and we seek your best interests as well as our own, so we tell you what you have read above.

These clothes fit—they have a style and character that gave them the entrance, alone of American clothes, into London and England.

All you need do about it is try on the clothes. They fit you before your eyes.

# POPE SPEAKS ON FRENCH QUESTION

## Declares Republic Is Undermining the Foundations of Christianity.

ROME, Nov. 19.—Pope Pius, in an address to the French pilgrims whom he received today, declared that France was making war against the church with an aim of undermining the basis of Christianity. Catholicism, he declared, was suffering persecution by the French government under the pretext of the separation of state and church.

This was proved, he said, by the expulsion of the orders, the trials and condemnations inflicted upon Cardinal Andrieu and other bishops and the threatened laws which would extend official protection to irreligious teachers and was bringing about a state monopoly of the schools.

France, which would make the state the arbiter in religious matters, was at the same time fighting the French bishops who were faithful to the pontiff. These bishops were not allowed, the Pope said, to enjoy the liberty granted by French laws to all free citizens, but on the other hand were insulted, tried and condemned for the sole reason that they were courageously fulfilling their apostolic duties.

"If this," the Pope said, "instead of depressing, must animate Catholics to defend their religious rights.

The papal words were accepted here as confirmation of the opinion that the Vatican believes the struggle organized by the French government on the school question is intended to be a decisive battle for the complete effacement of Christianity, as a factor in the rearing of children in France.

POPULAR FEELING.  
PARIS, Nov. 18.—Mothers of the Catholic pupils at the young girls' school at Chassigny-Sous-Dun, in Saone-et-Loire, made a public bonfire today of the impudently text books used by their daughters. At other places in that commune Catholic girls withdrew from the schools.

At Bayonne, where the priests have refused absolution to children attending the public schools in defiance of the clergy's warning, the parents have retaliated by refusing to contribute to the support of the church.

# TRIAL CONDUCTED IN AMERICAN FASHION

PARIS, Nov. 19.—For the first time in a French assize court a trial was conducted today after the Anglo-Saxon fashion. This was a fulfillment of the wish of Minister of Justice Barthou that court reforms be instituted, including the abolition of the jury, the judge's interrogation of the prisoner.

Today the public prosecutor conducted the examination of witnesses, as is the practice in the courts of the United States, and at the end of this examination the prosecutor asked for the discharge of the accused on the ground that the evidence developed was insufficient.

Deputy Mequillet introduced in the Chamber of Deputies today a bill providing that witnesses in court trials may have a lawyer present when they are examined.

# CHINESE TOWN IS OPENED TO TRADE

PEKING, Nov. 19.—Arrangements were completed today for the opening of Hun Chun, Manchuria, to international trade. The town, situated nine miles northeast of the Korean boundary, near the confluence of the Hun Chun and Yalu rivers, and less than 100 miles from Vladivostok. The town has a population of 10,000 and has a considerable trade with Korea.

HALLEY'S COMET SEEN.  
FLAGSTAFF, Ariz., Nov. 19.—Halley's comet, observed at the Lowell observatory here, shows a stellar nucleus in its preceding part, with a semblance of a head and slight suggestion of a tail developing. It is still faint, with very rapid motion.

# CAN BUILD PIPE LINE.

MUSKOGEE, Okla., Nov. 19.—Federal Judge Campbell granted an injunction yesterday to the Quapaw Oil and Gas Company, restraining the state officials from interfering with the laying of gas from Oklahoma to another state.

As a result of this action, a force of men will begin today to build a gas line from Washington county, Okla., to Joplin, Mo. The project is to be used as a fuel for zinc and ore smelting and industrial plants in Joplin.

# FIRE ON MORGAN'S YACHT.

NEW YORK, Nov. 19.—Fire on board J. P. Morgan's yacht, the Cornelia, burning rapidly at the ship yards in Hoboken, N. J., gave the firemen and workmen a lively fight today. It was conquered before it had reached dangerous headways.

NATIONAL GRANGE ADJOURNS.  
DES MOINES, Nov. 19.—The National Grange closed its annual convention here today with the administration forces in complete control. The closing of the meeting will be held in Atlantic City, N. J.

# CHILBLAINS

Can be cured with S. B. Childlain's "No. 1" ointment. Try it at Smith Bros' Drug Store.

# Anty Drudge Explains Why.

Mrs. Don't-care—"Yes, but soap is soap, and it doesn't matter which we use."

Anty Drudge—"Yes, and medicine is medicine, but it does matter which kind you take. And it is the same way with soap. Some will do the work and some won't. I know from experience that Fels-Naptha is the only kind of soap that will wash things clean in cold or lukewarm water. It isn't just soap; it is a different and easier way of washing."

"Soap is soap," said a woman. Her only idea of soap was something to mix with hot water in order to make a steaming suds. She thought it didn't matter which kind she used—and it didn't.

But if she had used Fels-Naptha in the way it should be used, in cold or lukewarm water, she would have learned that Fels-Naptha is not only a soap but a different way of washing.

A sewing machine is of no use to a woman who doesn't know how to use it. Neither is any other labor-saving device.

Before you use a cake of Fels-Naptha, then, read carefully the directions printed on the back of the red and green wrapper. The directions will tell you how to make Fels-Naptha do the hardest part of your washing, without hot fires, without steaming suds, without boiling or back-breaking hard labor. It will save your clothes, save time, save fuel, save your health and the clothes will be cleaner and whiter than ever before.

But not unless you use it the Fels-Naptha way. Look for the red and green wrapper.

# The Clothing

we sell is equal to any produced.

When you purchase a suit or overcoat, why not get a well made and stylish one to begin with. Our clothing is made expressly for and to meet the requirements of all Fresno men. You get the utmost quality, the utmost style and the utmost service. The prices range from \$15 to \$35.

Do you wonder that the well dressed men of Fresno buy their clothes at this store.

Tailors Hatters **George Bros.** Clothiers Furnishers  
Mariposa at J St.

# FUND FOR BENEFIT OF NEEDY INDIANS

PASADENA, Nov. 19.—Much sympathy, aroused by the assertion that the 200,000 Indians who formerly lived in California had been reduced by starvation to 70,000, the delegates attending the convention of the Los Angeles District Federation of Women's Clubs, showed dollars, halves and quarters into the hat of the president last night to furnish a fund for the benefit of the aborigines on the various reservations.

A resolution was first introduced, declaring the sad state of the Indians, but it was withdrawn and the money shower substituted, when the president, Mrs. Elizabeth Humble, removed her big plumed hat and declared that she had a silver collection. It would, she said, be the quickest means of alleviating present conditions.

The next question before the club now will be how to distribute the funds.

# 540 HIDES MAKE BIG LEATHER BELT

NEW YORK, Nov. 19.—What is declared to be the largest and most expensive leather belt ever made for power drive has just been shipped to the South from this city. The belt is 240 feet long, six feet wide, three-ply thick and was constructed at a cost of \$5,000. Into the belt went the hides of 540 Texas steers. The belt was built for the Great Southern Lumber Company of Bogalusa, La.

# PREHISTORIC FORT FOUND IN MICHIGAN

CADILLAC, Mich., Nov. 19.—A C. Fessenden, a found merchant, while out hunting yesterday, discovered near Boone village, on the crest of a hill, the well defined remains of a fort, built in the prehistoric times by the Indians, or some other tribe that inhabited this region before the time of Columbus. This is the first time of this kind of discovery in this state.

Mr. Fessenden has made in the vicinity of Boone in eight years, all in a radius of a few miles. In some parts of what was once an enclosure the embankment is three or four feet high, with a trench on either side. Some of these intricate earthworks consist of two trenches close together, showing plainly that a stockade had been erected. A number of clay vessels were unearthed.

# NINETEEN CHILDREN IN TWENTY YEARS

NEW YORK, Nov. 19.—Mrs. Marie Budough, 46 years old, and married twenty years, has given birth to her nineteenth child. Only nine of the children are living, but one of them a daughter 19 years old, is married and the mother of one child.

## DID MARRIAGE CANCEL DEBT?

Or Was It Consideration for  
the Loan of \$1300?

Public Administrator Seeks  
Letters in Murdered  
Brown's Estate.

The long pending action of Ada F. Brown, formerly Hackett, against A. H. Brown, was dismissed yesterday at request of her attorney in Hanford. The suit has been pending since November 24, 1907, one year thereafter elapsed before numerous affidavits and another year elapsed before the third and last step in the dismissal. Mrs. Brown was an unmarried woman with \$1,300 on the 15th of November, 1908, when she loaned that money to the defendant on his note payable in five years at 9 percent. The complaint states that not a cent has ever been paid on principal or interest, but it does state that fifteen days after the making of the note Ada F. Hackett became Mrs. A. H. Brown by marriage. The deputies in the clerk's office started a world of conjecture whether marriage was a consideration for the note or the child in quo which canceled the debt obligation.

### DIVORCE ACTIONS.

Mary Derner was divorced from Henry Derner, who spent six months in jail for beating her up in making a second like sojourner for the same indulgence. They are Russians. They married here on New Year's day, 1908, and last August he swooped down on her with fist and feet. They have a girl child aged 8 months.

Complaints for divorce on the ground of desertion have been filed by Mary Terzinger against John Terzinger, by James E. Christian against Bertha L. Christian and by Alice Osborn against L. J. Osborn.

The trial of the divorce case of Sarah Haslam against Francis B. Haslam with all her sensational charges has been set by Judge Austin for the morning of the 15th inst.

### SUES FOR STREET WORK.

E. W. Redman has sued the San Francisco and Fresno Land Company for \$112.50 assessment against block 47 of the Page tract for street work on

Fresno street under a contract of \$4,250 and an assessment of \$4,422.50 for \$180.30 against block 33 on the \$4,250 contract for grading Olive avenue, also for \$85.28 against four lots in block 28 on the \$4,400 contract for grading a street, against C. H. Jennings and A. D. Cutler for \$21.92 against lot 1, block 16 of Grand Avenue Park for olive avenue work and against Mary J. Meigs for \$12.48 against lot 1, block 12 of Alameda addition and \$19.73 against other lots for the sidewalking of Calaveras avenue.

### SUBMITTED AT LAST.

The long pending and complicated case of the Hume-Bennett Lumber Company against R. E. L. Good of Clovis and C. A. Tetter as assignee in bankruptcy of the abandoned Millman William McKinnis was tried yesterday before Judge Austin and taken under advisement. The defendants are litigating as between lumber saving contract assignees for money advanced and assigned for the creditors' money paid into court by the lumber company and earned under contract for lumber sawed at the Millwood and Pine Ridge mills.

### ESTATES IN PROBATE.

Nellie M. Walker asks for letters of guardianship over her children, Ralph M., Lois V. and Lowell E., whose father, William, died on the 10th of August, 1908. Their estate consists of interest in the father's estate of uncertain value. Paternal and maternal grandparents, uncle and cousin live near Selma.

Public Administrator Andrews has asked for letters in the estate of the murdered Hamlet R. Brown consisting of lots 10 and 11 in city block 78, valued at \$2,500 with annual rental of \$200; cash in bank, \$43.75; personal property, \$500, and a real estate in Los Angeles of present unascertained value.

### QUIET TITLE SUIT.

William Kuhlman has been sued by Satran M. Houseman to quiet title to lots 1 and 2 in block 3 of Prather's addition, claimed by the plaintiff in fee.

### ADVERTISE STATE

IN MIDDLE WEST

California Promotion Committee Alive

to Importance of Farm Land

Congress.

How well the literature of this region is distributed is described by the California Promotion Committee in its weekly letter to the local commercial bodies. The committee points out that during the present month three large congresses are meeting in Chicago, in attendance at which it is estimated that there are about half a million farmers of the Middle West, whence a very large part of the movement to California emanates. The congresses are the National Farm Land Congress, the United States Land and Irrigation Exposition and the National Fat Stock Show.

The committee has opened its Western bureau in the Coliseum building, headquarters of the United States Land and Irrigation Exposition, and Dr. Clarence R. Edwards, chief of the literary bureau of the California Promotion Committee, is giving daily illustrated lectures there, telling the assembled farmers of the opportunities of California.

The committee has organized a systematic campaign, not only for the distribution of literature at the congresses, but for entering in correspondence with those interested in the situation in California in a detailed way, and it is planned to write these people personal letters answering their question and sending them literature. At the opening of the National Farm Land Congress Dr. Edwards spoke for California, having been commissioned officially by Governor Gillett to make the state address in behalf of the state.

Rufus D. Jennings, chairman of the California Promotion Committee, is a member of the advisory committee of the National Farm Land Congress and is also a member of the committee on program, which has had the important duty of utilizing the entire program for the gathering.

### FINAL Y. M. C. A.

PRAYER MEETING

Wednesday Noon Assemblies May Be

Established as a Perma-

nency.

The noon prayer meeting at the Y. M. C. A. yesterday was one of the best of the series. Some of the directors attended and entered heartily into the spirit of the meeting. The need of such a meeting, at least once a week, has been emphasized and it is quite likely that a Wednesday noon prayer meeting will become an established thing in the association.

At noon today will be held the last meeting of the week and it is anticipated that it will be the largest. School Superintendent S. W. Lindsay will lead the meeting and the topic for prayer is "National Committees of Young Men's Christian Associations Throughout the World and the World's Committee."

While the form of government of the Young Men's Christian Association is such that each association is a unit and independent in the management of its affairs, it is generally recognized that their highest efficiency and usefulness is reached when each is a member of a group so organized as to provide a wise and effective supervision. This has resulted in the forming of National Committees of which there are twenty-five in as many nations on the different continents, most of them employing one or more national secretaries, all represented in the organization of the World's Committee.

### BROWN FUNERAL

THIS AFTERNOON

The funeral of the late Hamlet R. Brown, who was shot and killed by J. E. Kerfoot, now a fugitive from justice, last Tuesday night at 625 K street, will be held this afternoon at 2 o'clock from the funeral parlors of Stephens & Bean on I street. Interment at Mountain View cemetery.

### RAILROAD IS FINED.

SAN FRANCISCO, Nov. 19.—U. S. District Judge De Haven imposed eleven fines of \$10 each today on the Chicago and Northwestern railroad for eleven violations of the railway safety appliance law.

### UNITARIAN GOSPEL.

"You Think Your Grandmother Was

An Angel"

No. Evolution never taught that. It does teach that man was developed from the lower forms of animal life. This seems to Evolutionists a much more honorable origin than that taught in the old pagan, Genesis legend, viz., that man was created out of dust. To believe that God sifted that dust for ages, that he fined and refined it through plants, insects, fish, birds, animals, until at last he had material to make a being which should be the crown of creation, and should rule over this universe, this seems to us to put great honor on man. This is only one of the many wonderful facts revealed in the "Gospel According to Darwin," as I will show in the series of lectures on Evolution, the first of which I am to give Sunday night in the Parlor Lecture Club hall, 1300 K street. Subject, "What is Evolution? Is It True?" Do Scientists Accept It?" J. A. CRUZAN, Field Agent.

# A Big Woolen Buy

We bought \$31,000 worth of goods from L. Lyon & Co., the highest grade merchant tailors in the world, who never made a suit less than \$60. They were forced to sell them at a sacrifice ---we realized this was a good opportunity for us to buy some of the best woollens that are made at an extremely low price, and our bid being accepted enables us to pass them along to the men of Fresno, tailored in our usual first class style, at the ridiculous price of \$22.50 a suit or overcoat.

### The Cost of Carelessness.

Neglect of a "common cold" is so often the direct cause of dangerous disease that medical men cannot understand why it is so many people allow a cold, with its attendant cough, to run its course unchecked. Aside from the unpleasantness and annoyance, the resulting irritation of the mucous membrane in the throat, lungs and bronchial organs leaves them sure and very susceptible to attack. With the first indications of a cold, take steps to check it at once. A simple, inexpensive remedy can be prepared at home by mixing two ounces of glycerine, a half-ounce of Virgin Oil of Pine compound pure and eight ounces of pure Whiskey. You can buy these in any good drug store and easily mix them in a large bottle. It is claimed by the Leach Chemical Co. of Cincinnati, who prepare the genuine Virgin Oil of Pine compound pure, that a teaspoonful of this mixture, four times a day, will break a cold in twenty-four hours and cure any cough that is curable.

## LATEST GOSSIP OF THE SPORTS WORLD

MR. FAN, KEEP YOUR EYE ON  
CINCINNATI REDS NEXT SEASON;  
GIANTS ARE OUT OF RUNNING

Keep your eye on the Cincinnati Reds next season. This remark is not prompted or subsidized by Frank C. Bancroft, for two decades the business manager of the Reds.

The facts seem to warrant the prediction. This person, Frank C. Bancroft, is a master workman. He jotted the best of them in turn last season, and his work was so good that Harry Herrmann made him a present of \$1000. Next season, Bancroft will have a better line on his material. Practically all his young players made good, and the team is composed largely of young ones. Next season these youngsters will be a year older, and just that much riper in experience.

When it comes to winning the pennant, Cincinnati would appear to have a mighty slim chance next season, that is. But it would not be surprising were the Redlegs to crowd the Giants down into the last place in the upper division and finish third.

Chicago and Pittsburgh look like the contenders for the 1940 pennant. It is hard to figure New York in the fight, and the Giants are not likely to cause much worry to the Cubs and the Pirates, unless Metcalf succeeds in the covering one or two young "phenoms" between now and the joyous spring-time, or hits upon some other means of strengthening his club.

The Giants were an awful first last season. The deal whereby "Huge" Raymond went to New York and the Giants parted with the poorest first baseman and the failure to land Hamilton did more to hurt the Giants than did the Cubs and Pirates.

Raymond was a failure. Donlin's absence weakened the outfield, and Hank Aaron took the ginger to St. Louis with him.

Furthermore, it is hard to win a pennant with one pitcher. At this distance it is hard to figure the Giants in the race next season until a some-

HARVARD AND YALE FOOTBALL HUSKIES PICKED TEAM FROM  
MEE ON GRID ON GRIDIRON FRESNO AT  
TODAY TOMORROW HANFORD

Old Eli 10 to 9 Favorite—  
38,000 Persons Expected  
to Attend.

BOSTON, Nov. 19.—Football fever is epidemic in Boston tonight. The game between Harvard and Yale—the climax of the season to be played in the Harvard stadium tomorrow, was almost the sole topic of conversation in hotels, clubs and cafes and on the streets. The demands for seats have caused fabulous prices to prevail.

Seldom in the forty years' history of football have the teams of the two universities met upon such equal terms. Yale, the slight favorite in the morning tonight, but which have been seeded considerably from the 5 to 1 of two weeks ago and tonight the price was 10 to 9, with a few bets at even money.

The supply of tickets has been limited to 8,000, the seating capacity of the stadium. Ticket-holders, with few exceptions, are either alumni or members of families of alumni. So strict have been the rules governing the sale of the tickets that the crowd will be a more thoroughly college one than ever before.

The two teams are stirring up energy a few miles away in the quiet nooks of Auburndale and Medford.

Reports from the two camps tonight were optimistic. The injured list had been nearly wiped out since the hard games of last Saturday.

Captain Fish of Harvard, who received an injury to the chest, was reported in good condition and an undisciplined fighter in the opening scrimmage, if not in the entire game.

It is confidently expected that with two unusually developed, carefully trained teams, the game would demonstrate, as never before, the possibilities of American football. Each team is expected to uncover spectacular plays, with the old-fashioned line plunging, frequently varied, with well-executed forward passes and on-side kicks. Both elevens have picked up but this branch of the game, Yale is acknowledged to be superior to Harvard, as they can probably outkick Minor. The Blue ends, Kilpatrick and Savage, are faster than L. D. Smith and Brown of the Crimson. Smith, one of the also backs, regarded as a wonder in running back punts.

But the Harvard line, from tackle to tackle, is believed by close followers of the game to be more aggressive than that of Yale, while in the plunging Minor is believed to be a more consistent minor than any Yale back.

Burns and Stafford Join  
Reliance Eleven; Thanks-  
giving Game.

Manager Les Knapp of the Fresno Reliance football team announced yesterday the signing of Sam Burns and Roy Stafford as half back for the remainder of the season. In the scheduled game at Recreation park tomorrow afternoon against the Madras Tigers, Burns and Stafford will wear Reliance uniforms. Stafford will appear at left half and Burns at the other position behind the line.

Harmon will be at full back, giving the local eleven a trio of every grade of the good ground game of every grade of the back field is undoubtedly the best since the Reliance team was organized by Knapp. Last evening a spirited practice was held. Knapp was highly elated over the display which the huskies went through the night work.

Each man and the team, as a whole, showed plenty of glaze. Quarterback Golday and every stand in mind perfectly and the huskies worked in a huge ending. The game was well played with the practice. He firmly believes that the Reliance will be taken into camp this trip. Two times before, the Reliance boys have gone down to defeat by scores of 25 to 0 and 11 to 0 before the northwester.

The Reliance will play at 3 o'clock, Thanksgiving day, which is next Thursday. Manager Knapp is figuring on a game at Recreation park with the Boone's Academy team of Berkeley, should the Fresno Reliance be unable to clash with the Boone's academy team.

Local football fans have been anticipating the annual Thanksgiving game. In fact, it wouldn't seem like Thanksgiving unless there was a football game. The game is demoralized, half of the team is under suspension and unable to play. However, Captain Oney will lift the ban before next Thursday in order that the men may line up against Boone's academy team. Oney does not want to "hurt" the team, but he is willing to save the day and put his 150-pound Reliance squad against the Boone's.

Football Fans Will Not Be  
Disappointed; Just Ex-  
hibition Game.

A picked team of football huskies from Fresno High school will journey to Hanford today to fill in for the regular Purple and Gold team in the scheduled game with Hanford High. Late yesterday afternoon Manager Les Knapp of the local school closed by appointing the manager of the Hanford team that the return game scheduled for today on the Kings county gridiron would have to be postponed indefinitely. Half the members of Hanford's crew are under suspension from the institution.

Four regulars and all of the subs are on the shelf as a result of Principal Oney's ultimatum. These would be ineligible to play against Hanford as a regular high school team.

Therefore, today's game will be in the nature of a practice of exhibition contest for the Hanford team. The southerners will be playing practically the same team but should they win it will not be counted as a victory over Fresno. If the local school loses, the Purple and Gold will not be a victory for the Purple and Gold.

Coch Monaghan of the Hanford eleven telephoned to Captain Crawford late last night, asking that some sort of an arrangement be made for the scheduled game. He was large and he did not desire to disappoint the public. The game will be just as good with the same players on the checkered field, but the name will be just Fresno, that is all.

What's in a name, anyway? You can't always judge an article by the label, so today's battle at Hanford should be a memorable one, notwithstanding that the colors of Fresno High will not flaunt along the sidelines.

PFYL DEPARTS  
FOR HIS HOME

Monty Pfyl, the leading first baseman of the California State League, without doubt the best regular first baseman in the West for many years, will leave this evening on a visit to his relatives in St. Louis and vicinity. He not only proved himself a great player, led the league in stealing and hard work, but was one of the few players who after giving his word to play here, remained throughout the season. At no time did he waver, though some very tempting offers were made him by other clubs. He will return in Stockton shortly after the first of the year and get the benefit of early spring practice and get ready for the coming season, when he expects to play even better ball than he did last year.—Stockton Independent.

ST. YVES BEATEN.

VANCOUVER, B. C., Nov. 19.—John Marsh of Winnipeg beat St. Yves, the Marathon champion, in a 15-mile race here tonight. The time was 1:12:28. Marsh led all the way and had a lap lead in five miles, when St. Yves stopped to change his shoes. Marsh secured a big lead here and increased it steadily. St. Yves quit in the tenth mile with Marsh ten laps ahead. A physician examined the French runner's leg and discovered a badly twisted tendon. It was on his advice that St. Yves retired from the race. It is claimed that the track was half a lap short to the mile.

THROWS THREE IN HOUR.

CHICAGO, Nov. 19.—Zheko, the Polish wrestler, won a handicap match here tonight from three men in half an hour. Zheko guaranteed to throw them in an hour. They were Tom Wiedhofer, John Eberly and Leon Damsant.

Yousuf Mahomet, the Turkish wrestler, at another show, won a one-fall match from William Demetrol.

Most disgusting skin eruptions, scurf, pimples, rashes, etc., are due to impure blood. Purify the blood with a cleansing blood tonic. Make you clear-eyed, clear-brained, clear-skinned.

Itching piles provoke profanity, but profanity won't cure them. Epsom's Oriental cure, itching, bleeding or protruding piles after years of suffering. At any drug store.

If you haven't the time to exercise regularly, Donah's Regulars will prevent constipation. They contain a mild, laxative, but all action of the bowels without "slipping." Ask your druggist for them. 25c.

Stops carache in two minutes: toothache, headache, pain in back or neck in five minutes; heart-ache, one hour; muscle-ache, two hours; sore throat, twelve hours.—Dr. Thomas' Electric Oil, monarch over pain.

NOTICE TO  
TAXPAYERS

The first installment of taxes, both city and county, are due and payable at the office of the Tax Collector, at the Court House, Fresno, the second Monday in October (the 11th) and delinquent the last Monday in November (the 29th.)

Both installments may be paid at the same time.

Please remember that after six o'clock on Monday, November 20th, a penalty of 15 per cent will be added and this law will be carried out to the minute. I would advise paying as early as possible to avoid the rush that occurs the last week.

A. B. SMITH  
Tax Collector,  
Fresno County.

Y. W. C. A. RALLIES  
AT BIG BANQUET

"War of Roses" Wages  
Most Merrily On.

Leading Members in Association Speak Helpfully  
in Response to Toasts.

More than a hundred guests sat down last night at the banquet held at the Young Women's Christian Association, at which Miss Carolyn Patch, the territorial secretary, was the honored guest. The event was in the nature of a rally, those attending being members of the association who are especially interested in the success of the campaign which is known better as "The War of the Roses."

It was the first really big, formal affair that the association has given and it was an inspiring sight to view the banquet table with its two long tables aglow with red carnations. It was a representative gathering not only of the women who comprise the board of directors, but likewise of all the members of the association.

Mrs. C. R. Taylor was the toastmaster and thronged the life of the evening in her clever introductions to the several after dinner speakers. She called on a number of the prominent members of the association to respond to toasts proposed to various branches of the association and its work. The after dinner program proved to be a most agreeable sequel to the dinner. "Our Association" was the first toast of the evening, responded to by Miss Julia Sayre. Miss Sayre responded in an enthusiastic way, touching on past victories and outlining a yet more glorious future for the local association when it shall have obtained the new building for which all the members are earnestly working.

Mrs. Houston responded to the second toast, "The Board of Managers." The arduous, although unappreciated work of this branch of the Y. W. C. A. is not always well appreciated as it might be, by those not familiar with it and its functions. Miss Houston's speech, humorously dealing with the work of this branch of the young women's organization, was thus especially well received.

"Our Girls" a toast responded to by Mrs. A. B. Evans, was the next number on the after dinner program. Mrs. Evans spoke with peculiar acceptability on this subject, a flume of the plea "driving with delicate sympathy" with the special problems of the members of the association. Her toast was fitting introduction to the next toast, "Association Fellowship," to which Mrs. H. C. Warner responded. Mrs. Warner spoke in a happy vein on the deplorable lack of close affiliation between the members and the pleasures already derived from the close sisterhood of the association.

The great membership campaign now being waged was the next topic called on. Miss Baker responded to the toast very cleverly, recalling the historical war that was waged and holding out a high aim for those interested in the contest. She hopes that the membership may reach the thousand mark by December 1st.

Miss Alice Wright, for the red roses, made an inspiring little speech, and congratulated her side on its leadership, the vote standing 75 to 73 in its favor. Miss Laura Schaeffer made an equally stirring speech for the white roses.

Then Miss Patch was introduced and charmed her hearers with her enthusiasm and practical suggestions. Her subject was, "Give to the World."

WHY DUGDALE WAS  
TURNED DOWN  
BY EWING

Northwestern League Does  
Not Realize What  
Fight Means.

An official connected with the Coast League, who, however, does not wish his name made public, says that the reason why the Northwest League was turned down in its request to have a club in Portland, and this is what he said:

"Dugdale and Lucas went to the meeting at Memphis and tried to put through a resolution asking them the territory in Portland. This was territory, mind you, to which they had no right and which had been granted them by the Coast League merely as a favor. Their resolution was thrown under the table. Failing in that, they came to me for a favor, and they got it. Just what they ought to have expected, just what they ought to have expected. They thought because we granted them permission one year that they could keep that club."

It had been surmised since the annual meeting of the managers that this and the real reason for the turn down. Dugdale thought he had matters very much in his own hands and was brought up with a sudden halt.

The grounds of turning out are still quite firm from the Northwest, but it is confident that most of the magnates say they will not take such a step unless Judge McCreedy wishes to make an outlaw club of the Beavers and fight California and organized baseball. Judge McCreedy, when he said, "Judge McCreedy," was not rash, threats, as to what he would do, and before he left allowed it to be distinctly understood that he did not intend to do anything of the kind. It is very much to be regretted that the Northwest League, and knows that he would fall off his pet project by precipitating a fight.

That there is considerable business sense among some of the people in the Northwest is indicated in the following statement made by George Schroeder of the Tacoma team. "I think the Northwest League should go out there. While business conditions with me are such that I shall not be able to make the fight myself, I shall dispose of my assets and see that some one who can have no use for this team since Portland is taken from the league."

In other words, Schroeder is willing to have a fight, but does not propose to hold the team in the Northwest. Schroeder also makes a significant statement when he declares that without Portland the league will not be a success. That is exactly the situation. The Northwest people are hard pressed and don't know what to do.

One club owner, Joseph Cohn of Spokane, who he says, favors handing the entire reserve fund, amounting to some thing like \$15,000, over to Judge McCreedy to use as he sees fit to fight the Californians in Portland.

Wonder if Cohn ever discovered what it cost the California State League to make its fight last summer? If he is not aware he would do well to get into communication with C. V. Moreing. A reserve fund of \$15,000 would not be a drop in the bucket in making a fight.

Unquestionably, the Californians would extend the fight to Seattle and Portland and that would give each club owner as much trouble as he would care to look after.—S. D. Chronicle.

and she dwelt especially on the fact that giving out money gets no back. She is a particularly interesting speaker and gave some valuable ideas in her speech. The program closed with the Y. W. C. A. rally song.

The girls of Miss Houston's Junior Society served at the banquet.
